

MONDAY

STORY CARDS

Print out the story card document and cut out the individual cards. Go over what is happening in each picture as you show the picture to your child. Place the cards in order on the ground or on a table as you read them. Once you've gone through all five cards, mix them up and have your kids try to put them in order again. For your younger kiddos, you may need to help them every time! That is okay! Just keep going over what each card's picture means and help them get it in order.

For more of a challenge, have your kids tell YOU the story as they order the cards, or have them try to put the cards in order BEFORE you read what each card means!

No Printer Option: Flip through the picture story cards on your phone, tablet, or computer and go over what is happening in each picture as you show them to your child. After you have done this, have your kids flip through the pictures and tell you the story!

SUPPLIES NEEDED

- Story Cards (Printed and cut out or on an electronic device)
