

WEDNESDAY

CRAFT

Help your child make a boat for Jesus and his disciples to sail across the sea in!

SUPPLIES NEEDED

- White Paper (or colored if desired)
- A Blue Crayon or Marker
- A Popsicle Stick (a plastic utensil, straw, or stick of any kind would also work)
- Scissors
- Tape or Glue

STEPS

1. Print out the waves document from the KOTM curriculum site, or draw waves across a piece of paper.
2. Color the ocean blue. Maybe add some fish if your child loves to draw!
3. Cut out an obtuse triangle for the boat and a right triangle for the sail (view diagram).
4. Tape or glue the triangles to a popsicle stick (or substitute) as seen in the diagram to the left.
5. Cut a slit in the paper to slide the popsicle stick through.
