

MONDAY

STORY CARDS

Print out the [story card document](#), and cut out the individual cards. Go over what is happening in each picture as you show the picture to your child. Place the cards in order on the ground or on a table as you read them. Once you've gone through all six cards, mix them up. Begin telling the story again, picture by picture, and have your child find the picture you are describing. Read through the whole story as your child finds the cards and put them in order. When you are finished, mix them up and do it again!

For more of a challenge, have your child tell YOU the story so you can put the cards in order!

No Printer Option: Flip through the picture story cards on your phone, tablet, or computer and go over what is happening in each picture as you show them to your child. After you have done this, have your child flip through the pictures and tell you what is happening in each scene.

SUPPLIES NEEDED

- [Story Cards](#) (Printed and cut out or on an electronic device)
