

## TUESDAY

### STORY CARDS

Print out the [story card document](#), and cut out the individual cards on page one.

Go over what is happening in each image as you show the picture to your child. Place the cards in order on the ground or on the table as you read them. Once you've gone through all six cards, mix them up. Lay the numbered page with the colored rectangles in front of your child, and have them match the color around the story cards to the color on the numbered page. Once they have all of the cards in their place, go over the story again, pointing to each card as you go. When you are finished, mix them up and do it again! To change things up, you could have your child leave the room while you place the cards around the floor or furniture. Then have your child race around to find all the cards and place them in order on the numbered page.

**No Printer Option:** Flip through the picture story cards on your phone, tablet, or computer and go over what is happening in each picture as you show them to your child. After you have done this, have your child flip through the pictures and tell you what is happening in each scene.
